Comments

Student Support Office is not only the place to ask for help, but also a very good place to spend time talking with the volunteers. All the volunteers are really nice, and can help you at anytime you need. They are happy to help either in your Chinese or in anything else like going to the post office, or buy train tickets. Each one helped me in a way, or in a time that I needed, and they will arrange everything to make your stay here perfect, like organizing trips, Chinese corners, participate of the university Olympics and other sort of things. I'm really grateful to all of them.

The student support office as well as the volunteers was a great support during my exchange program at the Jiangxi University of Finance and Economics.

No matter how simple or complicated my matter was, at what time I came in to the office or when I simply wanted to talk to people, the people in the student support office always had a smile for me, were very helpful and a wonderful surrounding to just spend time.

I did not expect the volunteers to spare so much of their own free time to deal with all our problems as much as they have. With their open and friendly personality all of them made my stay at JUFE a great experience and they are the reason why I chose to be a volunteer for exchange students in my university too.

Comments

The Student Support Office and all the volunteers were a very important part of our experience studying at JUFÉ. Since the moment we arrived in Nanchang to the day we left, the volunteers were always there to support us in every way they could, and the doors of the Office were always open to receive us. The volunteers were happy to help us not only with administrative matters, organizing trips or getting directions, but also to get in contact more deeply with the Chinese culture, learn from each other, improve our Chinese skills and take full advantage of the Study Abroad experience.

The SSO did an excellent job organizing well-rounded activities for us that went beyond our academic studies, such as volunteering at charity organizations. But the most important part for me was that after one semester in JUFÉ and despite the cultural differences, many of the volunteers and exchange students were no longer strangers and became true friends, and we are certain that these bonds will last forever.

I think Student Support Office is our own office. This office is operated by a group of young volunteers. They always ready to help us. If we face any difficulties about language, communications or homework then our solution is Student Support Office. This office really makes our life easy and interesting in china. So I would like to thank Student Support Office and their volunteer.
